ABOUT ME

I am a highly motivated Java programmer who works with Spring Boot and Hibernate technologies. Additionally, I am specializing in building both the frontend and backend components of web applications.
I would like to continue learning and passionate about creating innovative software solutions.

WORK EXPERIENCE

ZETO | 2021 - Present

Practical knowledge of Java, Spring Boot, Hibernate, REST API, Maven, and Tomcat. Understanding of relational databases and the ability to design database structures. Proficiency in tools such as GIT, Docker, and IntelliJ IDEA.
Writing unit and integration tests.
